

Our customer's satisfaction has always been and will continue to be our primary objective. Simply put, guaranteed quality products and services each and every time.

For over 20 years, Procida Tile Importers, Inc. has been one of the premier providers of top-quality flooring throughout the Tri State area. In the 1960s our company started in the bathroom and kitchen installation business. Now that Procida Tile is one of the largest importers on the East Coast, we are fulfilling the flooring needs for countless institutions, corporations, retail malls, and private residences by providing the finest ceramic tile, stone, marble and porcelain.

Procida Tile Importers was established in 1980 when Joseph and Frank Procida began supplying ceramic and porcelain tile to institutions in the Long Island and Metro New York areas. In 1990, the company moved to its current location on Long Island.

Since then, we've expanded our offerings to encompass a complete selection of flooring options in order to provide a single-source solution for our clients. At Procida Tile, we truly care about the quality of our products and the integrity of our reputation.

At Procida Tile, we're proud to be purchasing the very best materials from sources throughout the world. We believe no other company beats Procida for our commitment to stellar uncompromising customer satisfaction.

You probably have walked on one of our floors since we've done work for many of the largest institutions, corporations, retail malls, and residential areas in the North East region including the Diocese of Rockville Center, Worldwide Headquarters for Seal Dynamics Inc. and Villa Lombardi's catering hall just to name a few.

At Procida Tile, our goal is to make our customers happy - while they walk all over us!
